CREATIVITY AND INNOVATION – WEEK 1

MGMT2094

WHAT IS THE UNIT ABOUT?

- Creating a different mind set…zig when everyone else is zagging!
- What does that mean to you?
- The terminology now used is "flip" which is repeatedly moving between different perspectives and paradigms. This is now done in "real" time and on demand
- It is a flexible mindset it stimulates a way of thinking and approach to life!
- It is a more counter-intuitive approach that reflects the way business is heading today to be more creative and innovative

UNIT ADMINISTRATION

- Each week, lectures will be posted on iLearn.
- Once registered in your tutorial, students are NOT to swap between tuts without discussion and approval by the U/C.
- Some tuts are F2F (temporarily online) and others will be conducted over Zoom
- Attendance is expected and engagement is encouraged and required.
- If you are on Zoom, please ensure you are muted, but camera on, so the tutor can see you and others. We will be using Breakout rooms and cordial behaviour is expected and required in all formats of this unit.

CREATIVE PROJECT

- The Assessment task is divided into two (2) tasks.

1. Create a mindmap centring around a societal issue (uploaded to Turnitin in Week 4) see ilearn for further details. Value: (10%)
2. Produce a creative production that depicts the solution to the societal issue chosen for your earlier Mindmap. This will be discussed and assessed by other academics and your peers in Weeks 6-7. Allocation to which week will happen in Week 5. This will require a on campus visit and your production to be physically displayed. Students will be required to answer any questions put to them by either their peers or academics during this display. Value: (30%)

Details are available on ilearn

SOCIETAL ISSUES – CREATIVE PROJECT

The areas of choice include, but are not limited to:

1. Education
2. Employment
3. Healthcare /COVID-19
4. Future Generations
5. Government Effectiveness
6. Housing
7. Disadvantaged
8. Economic Growth

ASSESSMENT TASKS – INDIVIDUAL CREATIVE PROJECT

Part 1:

- Mind Map
- Value: 10%
- Due: Week 4 Uploaded to Turnitin
- Part 2:
- Physical Creative Project e.g. Poster/Video/model etc
- Value: 30%
- Due: Week 6. Allocation will be made where students will come onto campus to have their project work assessed by academics, peers etc

GROUP INNOVATION PROJECT

- In groups of 4-6 students, the group will undertake an agreed innovation project. The project will centre on a range of issues which can be entrepreneurial, business and/or leadership focused.
- Each group will decide what the issue will be and undertake the project as a visual video project.
- In developing the idea/s, existing issues can be utilized, but the solution must be expanded on significantly to warrant being innovative and/or creative in nature and how will the change/s be implemented?

GROUP INNOVATION PROJECT
CONTD

The Group Innovation Project (30%)

- The Group will produce and submit a video production/presentation of their Group Innovation Project (Week 11)

-

Details available on ilearn.

WRITING TASK

The final assessment task will take place in Week 13 Lecture. Value: (30%)

Students will be given a statement for them to research prior to Week 13 Lecture time and write 750 words.

This will then be uploaded to Turnitin by a prescribed time in that lecture period.

Details are available on ilearn.

WHY STUDY CREATIVITY AND INNOVATION

- Arent we just that naturally or not?
- Some of us may well be, others aren't
- Creativity isn't just about the arts and Innovations isn't just about new things
- It will actually allow us to distinguish ourselves from others in the "new world"
- Name some who have done that?

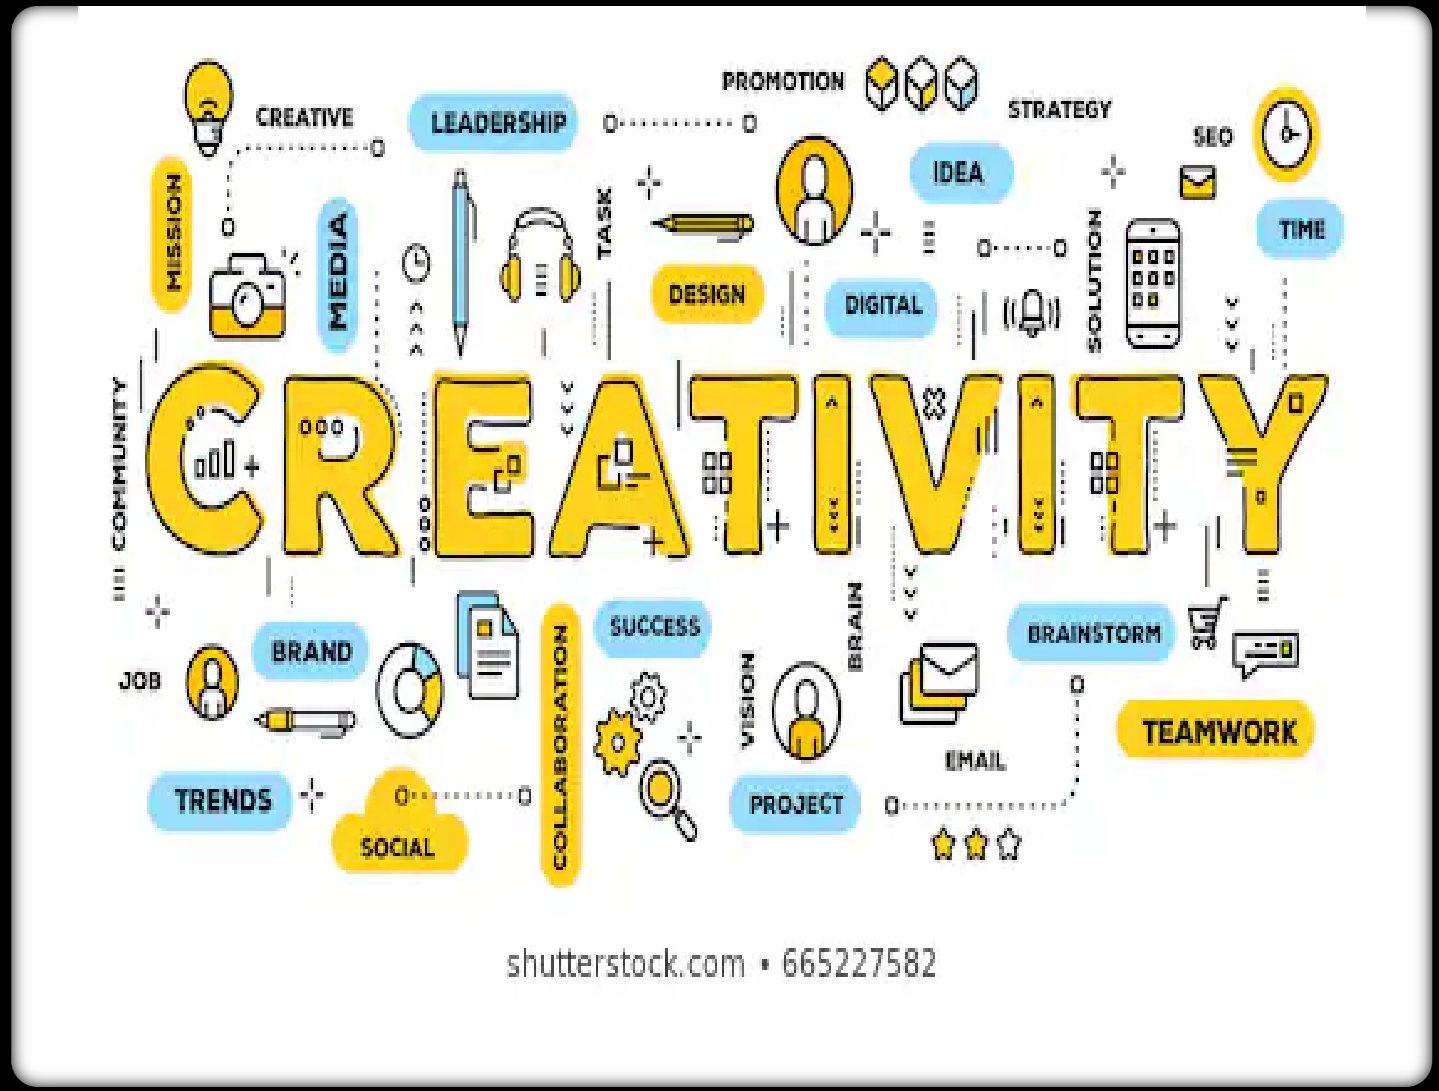

CREATIVITY DEFINITION

Creativity is seeing what everyone else has seen,

and thinking what no-one else has thought!

Einstein

BEING CREATIVE

- "When people say to me that they aren't creative, I assume they haven't learnt what is involved"

  Sir Ken Robinson (2011)

- What is creative thinking – it is seen simply as the ability to think, imagine or invent something new.
- Who has done that here?
- Whom do we admire as being creative in a business sense? It may have been the likes of Jeff Bezos; Elon Musk etc.
- Now we look at creative ways/methods of doing business e.g. DropShipping (where you don't physically hold the stock, but the manufacturer/wholesaler supplies your customer directly.

HOW CAN WE BECOME CREATIVE

- Without creativity we would have no progress and would be forever repeating the same experiences/ patterns.
- We will be looking at some of these over the weeks.
- What are some methods that can assist us in being creative?

1. Mind mapping
2. Brain storming
3. Sketching
4. Free writing
5. Thinking opposites
6. Seeking inspiration

DEVELOPING SKILLS WORKING OUT AT THE CREATIVITY GYM

1. Starting off – learning and developing the skills
2. Being Proficient – training your mind and getting inspiration
3. Becoming an Expert – Practising your creative thoughts and training your mind to automatically go into default creative mode and then receiving feedback on those thoughts/actions etc

WHAT COMPETENCIES DO WE NEED TO BECOME CREATIVE?

Individual Competencies:

- Exploring problems
- Building up willpower
- Self – awareness
- Being open to failure and feedback from others

Team/ Group Competencies:

- Supporting ideas from team members
- Practising psychological safety
- Creating and sharing visions
- Pushing the frontiers

THIS IS WHAT OUR PATH WILL VENTURE DOWN THIS SEMESTER.

CONCLUSION

Creativity is thinking up new things.

Innovation is doing new things.

Theodore Levitt

So in the first half of semester (Weeks 1-7), you will be thinking up new things and the second half you will be doing new things (Weeks 8-13).

Lets start the puzzle now….

IMPORTANT NOTICE

- Please note next week tutorials begin.
- The Zoom links for each tutorial will be on ilearn.
- Some weeks we will be having guest presenters. These will be done via Zoom. Details will be available on ilearn each week.
- If you have any issues/challenges or just want clarification don't hesitate to contact me via email.
- My contact details are on ilearn.
