Creativity and Innovation

AGILE INNOVATION

MACQUARIE University

* is a term used to describe a series of methods which originated in the field of software development
It involves:

- high-intensity team work (often called scums). Which are self managed.
- Rapid prototyping, testing and learning.
- Methods are more open-ended than traditional project management techniques
- Uses creativity tools such as design thinking
- **2 key roles within Agile innovation:**
  - Team Leader
  - Process Facilitator

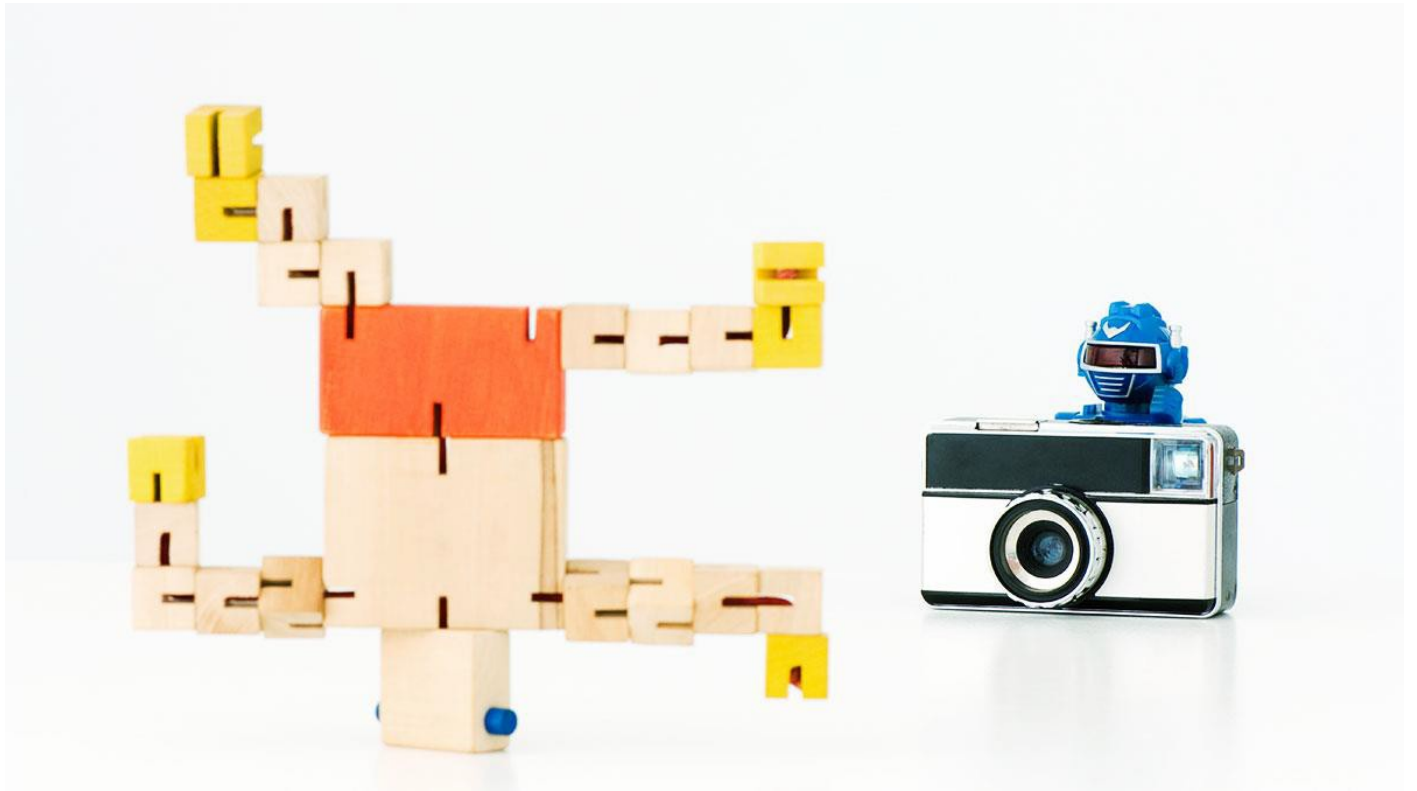

AGILE INNOVATION

Examples

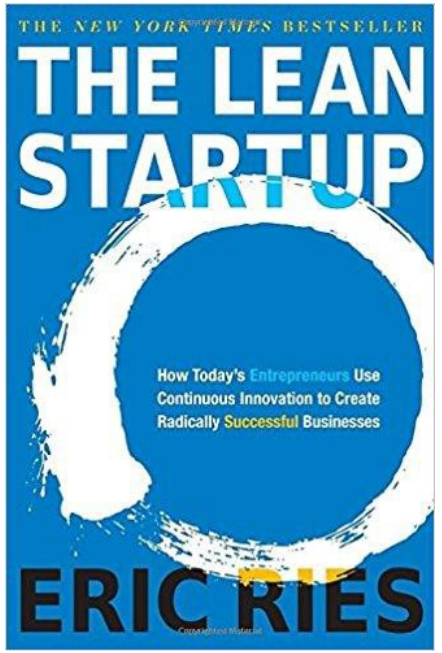

Lean Start-Up (LSU)

Steve Blank and Eric Ries

Key Principles:

1. Minimum viable product (MVP)
2. Lean – Agile Development

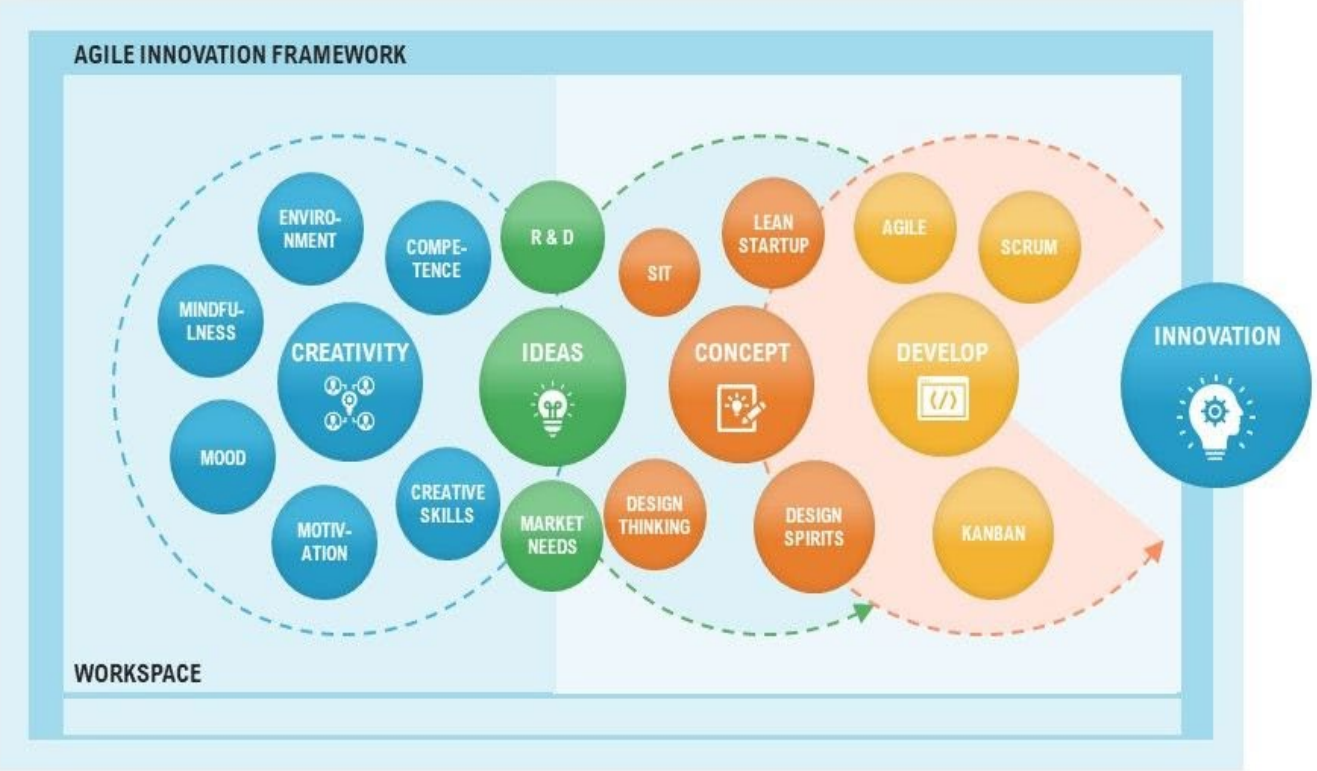

Lean Start-Up (LSU)

Steve Blank Hypotheses

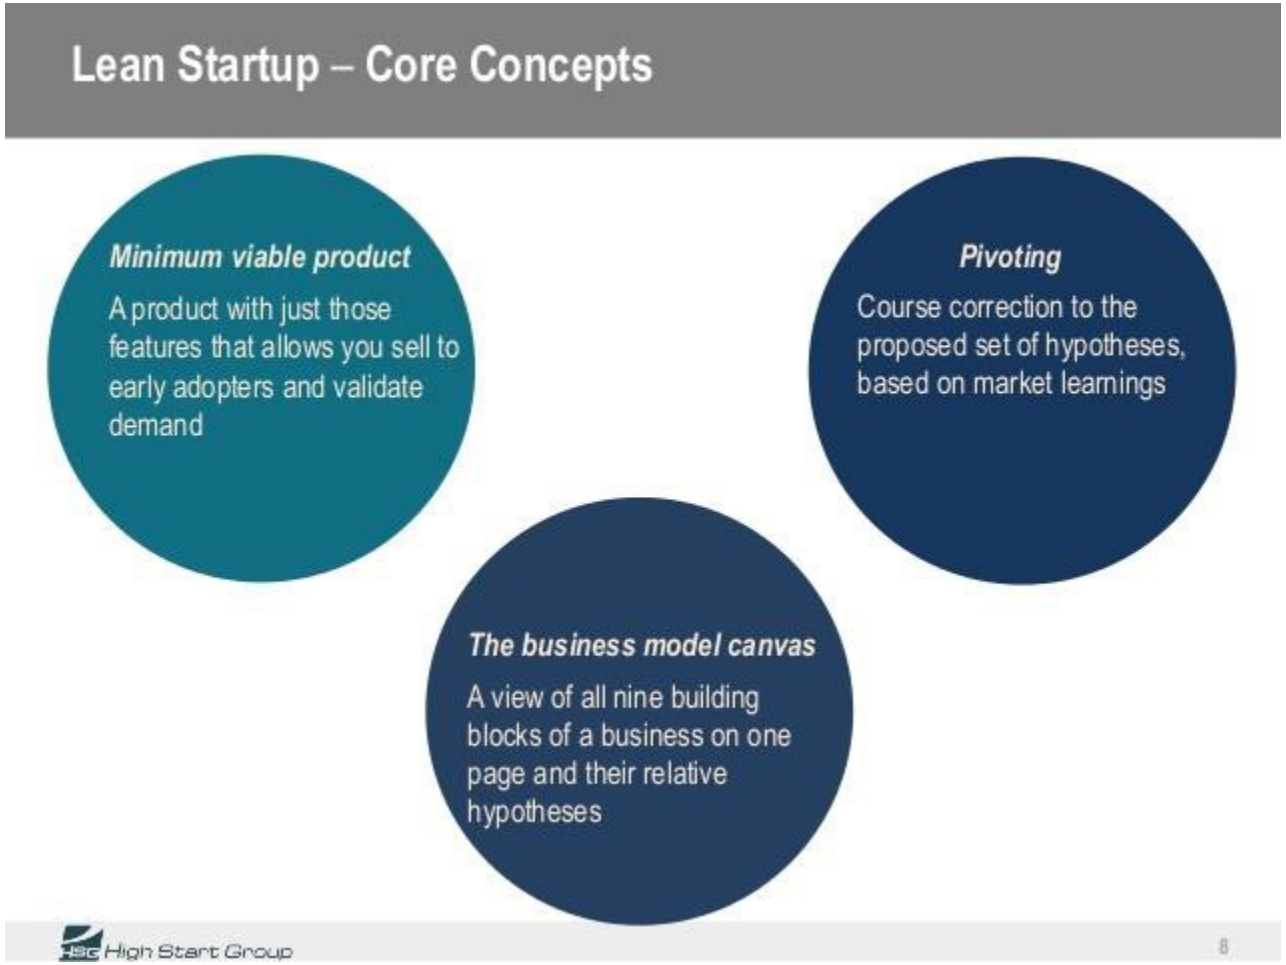

- Entrepreneurs and Investors are generally executing on guesses
- Startups aren't small versions of large organizations
- They are about learning/discovery, not execution
- Need to surface hypotheses/assumptions and test against facts
- However, the Facts Live Outside of the Building

Agile Innovation Framework in Organisation

This slide is 100% editable. Adapt it to your needs and capture your audience's attention.
